

Data Science and Analytics skills are likely to become prerequisites for a number of workers, from chief executive officers to entry-level positions. A 2017 PwC survey highlighted this trend, as cross-sectoral business leaders responded that by 2020, DSA skills would be “required of all managers” in their respective companies.

Projected DSA Workforce Demand in Select Economies

Economy	Current DSA Workers	Projected DSA Workers Needed	Percent Change
Malaysia ²⁴	4,000 (2016)	20,000 (2020)	400%
The Philippines ²⁵	147,420 (2016)	340,880 (2022)	131%
Singapore ²⁶	9,300 (2015)	15,000 (2018)	61%
Canada ²⁷	33,600 (2016)	43,300 (2020)	33%
United States ²⁸	2,350,000 (2015)	2,720,000 (2020)	16%
